

Symposium

Vendredi 17 Août 2012
10H- 12h

Salle des séminaires de l'IBS

Institut de Biologie Structurale J.P. Ebel
41, rue Jules Horowitz
F-38027 GRENOBLE Cedex 1
Tél. +33 (0)4 38 78 95 50 - Fax +33 (0)4 38 78 54 94
www.ibs.fr

Mini symposium de RMN Biomoléculaire

Programme

- 10:00 Prof. Masatsune Kainosho, Tokyo Metropolitan University; Nagoya University; Osaka University, JAPAN
Latest Developments in Stereo-array Isotope Labeling and Related Methods for High-resolution NMR Spectroscopy of Larger Proteins
- 10:40 Prof. Steve van Doren (Biochemistry Department, University of Missouri, Columbia (MO), USA)
Subtle Interactions of Matrix Metalloproteinases with the Collagen Triple Helix and Components of the Cell Surface, by Paramagnetic and other NMR Approaches
- 11:20 Prof. James Chou (Harvard Medical School, Boston (MA) USA)
An NMR exploration of membrane proteins, from channels to transporters

Hôtes : J. Boisbouvier & B. Brutscher (IBS/NMR)
