

Thermotoga petrophila endo- β -1,4-mannanase

da Silva VM, Cabral AD, Sperança MA, Squina FM, Muniz JRC, Martin L, Nicolet Y, Garcia W. High-resolution structure of a modular hyperthermostable endo- β -1,4-mannanase from *Thermotoga petrophila*: The ancillary immunoglobulin-like module is a thermostabilizing domain. *Biochimica et Biophysica Acta - Proteins and Proteomics* (2020) **186**, 140437.
